A GREAT CITY DIRECTORY ORGANIZATION SERVING

3,651,320 People in the most densely populated area in America

Annually, with a trained organization within these five states, serving one hundred and forty-one communities, each street and building is thoroughly canvassed for new names, changes and verification of prior information, after which by trained investigators, sections are again recanvassed to keep our name takers keyed up to a high degree of accuracy.

Through the process of sorting, compilation and still greater refining for accuracy, each name is handled twelve times as it becomes a part of the five departments when combined and printed into city directories, renders a service unsurpassed for those who know that without knowledge, activities become wasteful, confused and subject to duplication.

The PRICE & LEE COMPANY

Over 75 Years Making Good Directories Better

NEW HAVEN SPRINGFIELD HARTFORD NEWARK

The Greater Hartford Directory

In presenting this Edition of the Hartford City Directory, we again pay our tribute to those who by diligent effort for over three generations have maintained an indispensable service without interruption.

Starting with the first edition in 1828 with 1,640 names, covering a population of 9,789 (Federal Census 1830) ; following with another in 1838, there has been an unbroken line of annual directories to this current issue with 150,150 names, covering a population of 186,300 (Federal Census 1950).

For over a century this unbroken line of city directories has mirrored the city in each step of its progress and recorded the activities of its citizens so that many names that are making Hartford what it is today can be traced back to ancestors who were equally as important in their time.

A complete file of directories covering this period is indispensable to those who enjoy tracing those who laid the foundations for existing families. Nothing can equal city directories for this purpose when they are built solely for rendering each year as complete and accurate service as possible and, if kept, will add one more annual record of what Hartford is at this period; and it is with this objective that this book is presented with these outstanding features.

Standardization

This book, basically, has been made to conform to standardization of city directories, as suggested by the Department of Commerce in Washington and adopted by the Association of North American Directory Publishers, with the additional features of a more comprehensive governmental and civic department together with half-tone photographs of our leading citizens. This is a valuable feature of identification and in future years will perpetuate the memory of those who are making this community what it is today.

Governmental and Civic Directory

As the capital city, this department will give more general information than is usually found in city directories. Federal, State, County and Municipal institutions are represented by personnel.

Buyer's Directory

Likened to the development of our modern cities, the advertisements in this department have been zoned or classified. This is the result of standardization for simplification of use.

It reflects the professional, industrial and commercial activities in an orderly manner. Now with its simplification of use, so complete and diversified in its service it will open local channels for distribution and trade, and as a whole, visualizes as no other medium, the sturdy foundation upon which rests the Greater Hartford of today.

Alphabetical Directory

Names and occupations of those over eighteen years of age; also, many of those who are identified with business activities and reside elsewhere. When married, wife's name appears in parentheses.

Names and locations of firms, corporations and institutions.

Names appearing in large display type are paid-for listings.

This department is the foundation for all directory references, from which only additional information can be secured in other sections.

Numerical Directory

The additional avenues for service as incorporated will be continued and, as one becomes familiar with its many uses, it will become indispensable with one's activities. It is the microscope that tells "who is who" in any given area and how they can be located even to the distance from any given street corner.

This department has a neighborly friendliness and even its color (pink), gives it added warmth. Try it on your neighborhood.

Classified Directory

Within this increased area, so great diversification may be found, that one almost feels as if it were self-sustaining. To illustrate: You can find farmers raising tobacco, dairy products, vegetables, poultry, fruit, etc. As an outlet for these products there are listed 350 grocers, 75 meat markets, 9 milk dealers, 125 drug stores, 25 confectionery stores, 25 cigar stores and numerous other distributing centers. For these outlets there are 61,975 householders as found in the numerical section. Thus completing the cycle of creating and consuming.

Clear through this classified department you can trace these same channels of supply and demand for almost every business activity, which, when intelligently applied, forges a chain of inter-community activities, that strengthens by increased knowledge and recognition of every local source of supply.

Directory Library

A Free Service For All

We have at The Business Branch of the Hartford Public Library at 730 Main Street, a library of city directories, covering 1356 cities, towns and communities throughout the United States and Canada.

What your city directory can do for you locally, a directory library can do for you nationally.

300 Years of Progress

Capital and largest city of Connecticut, Hartford is located at the head of navigation of the Connecticut River. According to the 1950 census, population was 177,000 with 358,000 in the metropolitan area. Seat of Hartford County and the Metropolitan District, the city was settled in 1635 and incorporated in 1784. Its present land area is 18 square miles.

Evolving from an agricultural to an industrial economy, except for growing and processing cigar leaf tobacco which has increased in importance since, Hartford was the scene of early experiments in interchangeable parts which has made the city a recognized center of precision manufactures. Almost concurrently, beginnings were made of what is now one of the largest concentrations of insurance home or executive office operations in the world.

In 1955 manufacturers paid $348,000,000 in payroll to 75,000 employes. Widely-known products include aircraft engines, firearms, counting devices, typewriters, dictating equipment, machine tools and gauges, parking meters, chains, silencers, brushes, sauces, cocktails, liquors, tea and coffee makers, electrical devices and appliances, chucks, files, gears, presses, forgings, glass-making machinery, overseam sewing machines and turbines.

Payroll to 21,000 insurance employes in 45 home or executive offices totaled $84 millions last year. Hartford companies write every known form of insurance coverage. Premium income $2.7 billions.

Retail trade volume was estimated at $355 millions in 1955. Effective buying income per family, estimated at $7,000 ranked among the top 3 richest in the country. Commercial bank deposits amounted to $759 millions and clearings $1924 millions, second highest in New England.

Hartford is the home of Trinity and Hillyer Colleges, Hartford College of Law, College of Insurance and School of Social Work, three Theological institutions, two art schools and two music schools. The Hartford public school system comprises three high schools, three junior high and 20 elementary with combined enrollment of 21,000. Postal receipts exceeded $7 millions last year. Public recreation facilities include 3 golf courses, tennis courts, baseball diamonds, softball diamonds, supervised playgrounds, bowling greens, bathing areas, and many other attractions.

With its early beginnings in industrial and insurance underwriting development, the Hartford area has naturally become a financial center with these two industries forming the foundation of a sound economic structure.

Growth is a magic word. If an individual, a business, a city, or a community stands still, it goes backward relatively, since the normal rate of progress of the places around it moves gradually forward.

People like to live in a growing community, to be associated with active, growing people. Since growth is desirable it should be balanced—increasing in numbers rapidly enough not only to assure itself of maintaining its position, but growing also in better living conditions, in balanced opportunities for its citizens to earn their livelihood—in fact in all of those things which make for a more desirable community in which to live. Without the growth in population, Hartford could never have obtained her growth in industry and commerce, so necessary in a balanced community.

Hartford was founded as a colony 300 years ago with the arrival from Newtown (now Cambridge, Massachusetts) of Thomas Hooker and a band of sturdy followers who located on the west bank of the Connecticut River and named this new settlement Hartford in honor of Hertford, England, the birthplace of the Rev. Samuel Stone. A trading post "House of Hope" had been established by the Dutch, to barter with Indian tribes, however, in 1623. Thus Hartford had its beginning in trade and commerce and has continued to exert a cumulative force along these lines until today it has become one of the most important centers in New England.

Hartford, the capital city of Connecticut, ranks first in population, having a total 185,900 (1956 est.) for the city proper and approximately 407,000 for Greater Hartford. It covers an area of 18 square miles.

Hartford's geographical location, midway between Boston and New York and at the head of navigation on the Connecticut River, makes its a natural center of distribution.

INDUSTRIAL

Hartford's growth and business stability has been due in large measure to its great diversity of industry. Many internationally known products are manufactured and shipped from Hartford to all parts of the universe. A number of companies have the distinction of being the largest manufacturers in the world of the particular commodity each produces. The Underwood and Royal are the largest typewriter factories; the Fuller Brush, the largest brush plant. The Greater Hartford area is the home of the famous Colt Patent Firearms Mfg. Company, Pratt & Whitney Company (precision machines and small tools), the Arrow, Hart & Hegeman Electrical Company (electrical switches), the Hanson Whitney Industries (power transmission chains) and Veeder-Root, Inc. (counting devices), Pratt & Whitney Division United Aircraft Corporation (engines).

INSURANCE

Hartford is one of the most important insurance centers in the world and is often referred to as "The Insurance City." Forty-five companies are controlled from Hartford. One is the largest multiple-line insurance organization in the world.

FINANCIAL

Hartford's banking institutions serve not only Hartford, but towns and cities within a radius of twenty to twenty-five miles. Hartford ranks second in New England in bank debits. Four resident investment brokerage firms are members of the New York Stock Exchange and a number of New York and Boston firms maintain branch offices here.

MERCANTILE

Hartford has a trading population of over 600,000 and covers a radius of twenty-five miles. The attractive, diversified and advantageous shopping facilities which are offered here are unsurpassed in New England. It is estimated that 75,000 people visit Hartford every working day for business or social reasons. Hartford's retail business leads in this state. In department store and general merchandise goods, Hartford does 35% of the entire state's business in this category. Hartford's wholesale outlets serve southern New England.

AGRICULTURE

Hartford County ranks twentieth in the country in agricultural importance, it is especially noted for its Havana seed, broadleaf and shade tobacco. The value of the crops in a recent year was between $40 and 60 millions. A payroll of $15,000,000 covers 4,200 full time employes and 20,000 adult seasonal help and 10,000 seasonally employed youths. According to the latest census there are 3,791 farms. Products include tobacco, dairy, poultry, fruits, vegetables, hay, oats, etc.

TRANSPORTATION

Hartford has excellent transportation facilities by railroad, water, highway and air. There are eighteen trains into New York City with running time as low as two hours and eight minutes. Good service is maintained with Boston and upper New England points. Busses afford excellent urban transportation. Daily truck service is maintained by many truck lines between Hartford and points within a radius of one hundred and fifty miles.

AVIATION

Hartford was one of the first cities in the United States to develop aviation. It has the first municipally owned airport (Brainard Field) strategically located, two miles from the center of the city. Seaplanes can land in the river beside the airport. Hangar accommodations; repair facilities, specification, oil and gas; chartered passenger service. Terminal for United, American, North East and Eastern Airlines at Bradley Field, in Windsor Locks.

HOTELS—CLUBS

Hartford's hotel capacity approximates 3,000 rooms. Service clubs include Civitan, Exchange, Kiwanis, Lions, Quota, Rotary, Soroptimist, Unico and have an estimated membership of 1,000. There are fifteen golf clubs within a fifteen-mile radius of the city, plus many other business and social clubs.

EDUCATION

Hartford has not directed all of its energy to industry and commerce, but has given much time and thought to culture, music and art. There are twenty-six schools in Hartford including three senior and three junior high schools. In addition there is a regional technical school and fifteen parochial schools (elementary and junior high). Trinity College was established here in 1823 and since that time there has been founded in Metropolitan Hartford the LaSallette Missionary College, the Hartford Seminary Foundation, St. Thomas Seminary, St. Joseph's Academy (Catholic Girls' School), and Hartford College. Extension departments of the State University are located here (including the Law School, School of Social Work and the College of Insurance) and also the Hartford School of Music, the Julius Hartt School of Music, and the Hartford Art School. There are several country day schools and several business schools.

CHURCHES

Hartford was founded on religious principles, the first church (Center Church) being established in June 1636, with the Rev. Thomas Hooker as pastor and Rev. Samuel Stone as teacher. Metropolitan Hartford now has many beautiful churches numbering over one hundred and representing 18 denominations.

RECREATION

Hartford can boast of its recreation advantages. There are twenty-nine parks and public squares covering an acreage of 2,779. Provision is made for practically every known summer and winter sport, including golf, tennis, baseball, skating, running, bowling, bathing, dancing, etc. Hartford's position on the Connecti-

cut River affords excellent opportunities to boating enthusiasts. There are many theatres which furnish programs of moving pictures and vaudeville. The Horace Bushnell Memorial Hall has a seating capacity of 3,300 and has been declared by no less an authority than Leopold Stokowski to be the finest of its kind in the world. A number of famous artists and the Metropolitan Opera are scheduled to appear here during the coming year. Regular concerts have been scheduled by Symphony Society of Greater Hartford.

POINTS OF INTEREST

Among the many places of interest to visitors are the State Capitol (made of Connecticut marble; the State Library and Supreme Court Building; the Old State House (designed by Bulfinch) where Lafayette was entertained; State Armory; the Morgan Memorial, erected by the late J. P. Morgan in memory of his father, Junius Spencer Morgan, contains many fine tapestries and paintings; the Elizabeth Hart Jarvis Colt Gallery (adjoining Morgan Memorial; Avery Memorial, modern museum interior, old masters paintings and drawings; Wadsworth Atheneum and Hartford Public Library; site of the Charter Oak where state charter was secreted in Colonial days; the homes of Mark Twain, Harriet Beecher Stowe and Charles Dudley Warner. One of the finest stone bridges in the world spans the Connecticut River. The Travelers Tower, commanding a view of the Connecticut Valley, is the tallest building in New England (height 527 feet). Aetna Life Building largest Colonial structure in the World (length 660 feet). The Hartford Courant is the oldest newspaper in America, established in 1764 and the Hartford Times, founded in 1817, is located in one of the finest buildings in the city. Its mechanical equipment has attracted much attention.

TRINITY COLLEGE CHAPEL

THE TRINITY COLLEGE LIBRARY

Summit Street

The Trinity College Library had its beginnings with the founding of the College in 1823 when its first teachers assembled books from their own libraries for the genoral use of the College. Today the Library numbers 235,000 volumes and close to 100,000 pamphlets, largely publications of the U. S. government. To these collections has been added the 130,000 volume Watkinson Library (see below) providing Trinity with one of the largest college libraries in the country.

The Library is open on weekdays from 8:30 A.M. to 10:00 P.M., Saturdays from 8:30 A.M. to 5:00 P.M., and Sundays from 2:00 to 10:00 P.M.

THE HARTFORD CHAMBER OF COMMERCE

The Hartford Chamber of Commerce seeks to encourage trade throughout Metropolitan Hartford, to promote cooperation between business and government and to advance sound policies on questions affecting the financial, commercial, civic and industrial interests of the community at large. Its program must be general in scope, its policies founded on a broad basis. It cannot endorse a policy which would favor one group to the detriment of another.

The Chamber of Commerce is the key that unlocks the door to a solution of many of business's most perplexing problems—helping it to adjust itself to the tempo—to obtain a fresh start. Day in and day out this alert, aggressive organization is helping to clear up the confusion of complicated and misunderstood regulations, is continually guarding Hartford's trade and transportation advantages, relentlessly protecting it against harmful legislation and taxes, ceaselessly promoting its industrial and business advancement, constantly guiding the forces of civic betterment and in many other ways working for the welfare, prestige and progress of Hartford. The Chamber can no longer be regarded merely as a cheer leader in boosting Hartford.

The Chamber is engaged in highly technical work requiring experts to deal with the increasingly intricate problems relating to business and industry, national as well as local. At the present time, when a solution of our basic economic problems is being sought through the cooperative efforts of the Government and private interests, such an agency as the Chamber of Commerce becomes an indispensable factor in the intelligent functioning of government itself.

The Board members who direct its policies are outstanding leaders in their respective business fields. They give a great deal of time and thought to this gratuitous job. Other business men particularly adapted for the assignments, serve on committees which analyze conditions, marshal the facts and submit recommendations upon which action is based. Back of this physical activity is the active interest and backing of the representative concerns in the Chamber's membership.

"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest: then, a sympathy: then a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful: and, finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

I AM

I sit in the castles of business and at the hearthstones of many homes, mighty in my power to serve.

Through me is the power to make people talk with intelligence concerning their communities.

With extended hand I guide the wearied traveler, and to others shorten the distances between destinations.

In me abides the essence of democracy, as side by side is found all nationalities, rich and poor alike.

With uncanny certainty I unite long-lost friends and make glad the missing heirs.

Through me are protected the law-abiding by tracing the criminal to his hiding place.

Through me, in the friendliest way, new trade channels are opened.

I am the key that unlocks the gate to what your community is, for all who would pass its portals.

COUNTY CORONERS AND MEDICAL EXAMINERS

(47) 50 State.

Chapter 14.
Sec. 240—

The judges of the superior court shall appoint for each county, upon the recommendation of the state's attorney for such county, a coroner, who shall be an attorney at law residing in such county, who shall hold his office for the term of three years from the time of his appointment and until another shall be duly appointed in his stead, unless he be sooner removed from office by said judges who may for cause shown so remove him and who may, on the recommendation of the state's attorney for the county, fill any vacancy in the office of coroner.
Sec. 242—

The coroner of each county shall, in writing, under his hand, appoint for each town in the county an able and discreet person, learned in medical science and a resident and taxpayer of such town, to be medical examiner, who shall give a bond in the sum of one thousand dollars to the coroner for the faithful discharge of the duties of his office, and shall hold his office at the pleasure of the coroner. In case there shall be no person residing in any town in such county who possesses the qualifications required by this section and who will accept such appointment, the coroner may appoint a medical examiner for such town who is a resident of an adjoining town. Each such appointment shall be recorded in the records of the superior court in the county where made and, whenever any medical examiner shall be removed, the coroner shall deliver to him a written discharge and file a copy thereof for record with the clerk of the superior court. Upon the request of the first selectman of any town, the warden of any borough or the mayor of any city, the coroner of the county wherein such town, borough or city is situated may appoint an assistant medical examiner who shall possess the qualifications of the medical examiner and shall perform all of the duties of medical examiner during his absence or inability to perform the duties of his office.
Sec. 243—

When any person shall come to a sudden, violent or untimely death and when any person shall be found dead the manner of whose death is not known, any one who shall become aware of such death shall forthwith report the same to the medical examiner for the town in which the dead body lies. Such examiner shall pay the person first reporting such death fifty cents and shall, without delay, view and take charge of the body.

THE METROPOLITAN DISTRICT WATER SUPPLY.
Water Bureau Office, 115 Broad.

William A. D. Wurts, Dist. Mgr.; Edward J. McDonough, Chairman; Warren A. Gentner, Deputy Mgr. and Chief Eng.; Richard Dillon, Registrar.

Under authority of a special act of the General Assembly of the State of Connecticut passed at its January 1929 session, and later approved by the several towns at general elections, the municipal water systems of Hartford, Bloomfield, Windsor, Wethersfield and Newington were consolidated and transferred on July 1, 1930, to the Metropolitan District.

The companies thus transferred included the Hartford Water Department (Supplying West Hartford), the Bloomfield Center Fire District, the Windsor Fire District, the Wethersfield Fire District, the Wolcott Hill Fire District, the Center Fire District of Newington and the Maple Hill Fire District of Newington.

The water supply system of East Hartford was incorporated into the Metropolitan District system as of Jan. 1, 1941, following acceptance of the town as a member of the District at the 1940 elections.

Admission of the town of Rocky Hill to Metropolitan District membership was approved at the 1942 elections and the Rocky Hill Incorporated District's Water supply system was transferred to the Metropolitan District on January 1, 1943.

Except for the portion of East Hartford's requirements which is derived from the East Hartford reservoir system, except for the Town of Glastonbury, all water is supplied from the former Hartford system, a brief history of which follows.

The original water works of the City of Hartford consisted of a pumping station on the west bank of the Connecticut River north of Morgan Street, an intake line extending well out into the river, a supply main running from the pumping station to the Garden Street Reservoir located about 125 feet above the river and 1½ miles west of it. Water was distributed by gravity from this reservoir. Surveys for these original works began in October, 1853, construction started in June, 1854, and the first water was pumped from the River into the Garden Street Reservoir on October 23, 1855. This system was used continuously until Jan. 2, 1867, when a supply by gravitation from West Hartford was substituted. The pumping plant on the Connecticut River was held in reserve for emergency for a number of years and was used for short periods of time in 1879, 1880, 1891, 1899 and 1900 when West Hartford Reservoirs were too low to meet the needs of the system. During these periods epidemics of enteric disorders more or less serious were experienced.

The pumping station was finally dismantled and abandoned in 1922 following the sale and removal of the Garden Street Reservoir to the Hartford Fire Insurance Co. in 1921.

The West Hartford Reservoirs superseded the Connecticut River as a source of supply on January 2, 1867. This system was composed of a group of six small reservoirs lying on the eastern slope of Talcott Mountain in the towns of Farmington, West Hartford and Bloomfield. The total capacity of these six reservoirs was about two billion gallons. Water from all of them was distributed to the city through Reservoir No. 1 on Farmington Avenue. This reservoir, when full at an elevation of 260 feet above the Connecticut River, increased the pressure at the Old City Hall by 135 feet over that of the old river works.

Two of the six reservoirs are no longer used for water supply. Reservoir No. 1 is used mainly to run a hydro-electric plant which generates all electricity used in West Hartford reservation including the filter plant. Reservoir No. 4 was transferred in July, 1928, to the Board of Park Commissioners and is now used for park purposes. The remaining four reservoirs have been held as a reserve supply since Nepaug Reservoir water became available.

The Nepaug Reservoir is one of two principal sources for the Metropolitan District's water supply at the present time. Work on this project was begun in 1912 and Nepaug Reservoir water was first used in the city on October 27, 1919, and has been continuously used since 1921.

With a high water elevation of 482.5 feet above sea level, the Nepaug Reservoir floods 851 acres of land and has a capacity of 9,550,000,000 gallons. It has an estimated safe usable yield of about 21,000,000 gallons per day.

Included in the Nepaug project was the construction of the East Branch Reservoir in the towns of New Hartford and Barkhamsted. This reservoir is not a water supply reservoir but was built to compensate mill owners for the loss of water incurred by the diversion of the Nepaug River for public water supply purposes. The reservoir has a total capacity of 3,000,000,000 gallons and covers 437 acres. It is maintained by the water department and operated at the direction of mill owners downstream.

Water is conveyed from the Nepaug Reservoir to West Hartford through a seven and a half mile forty-two inch cast iron pipe line and a 36-inch reinforced concrete pipe line, both terminating in a concrete conduit and tunnel through the Talcott Mountain.

All water is filtered in a slow sand filtration plant composed of 18 filter beds having a total filtering area of about 9½ acres. No chemicals are used in this method of purification but the entire filtered supply is chlorinated. Water from the filter plant passes into two clear water storage basins having a combined capacity of 15,000,000 gallons and from these basins it is fed by five supply mains to the distribution system.

The Barkhamsted Reservoir is the second and largest of the two principal sources of water supply. Work on this project was begun in 1933 and regular water supply service was inaugurated in 1949.

The Barkhamsted Reservoir with overflow at 530 feet above mean sea level, has a water surface area of about 2,500 acres and a capacity of about 30,000,000,000 gallons. Its safe usable yield is estimated at 46,000,000 gallons per day.

Water from this reservoir may be delivered directly into the Nepaug Reservoir or to the West Hartford works through connections to the present pipe lines from Nepaug Reservoir.

HOUSING AUTHORITY OF THE CITY OF HARTFORD
846 Asylum Avenue

Commissioners—John B. Pearson, Chairman; Mrs. Mary H. Mahoney, V. Chairman; Percival C. Smith, Treas.; Edith I. Yoemans, Asst. Treas.; Thomas R. Bodine, Asst. Treas.

Functions—
In accordance with enabling legislation provided by the Connecticut General Assembly, the City of Hartford established the Housing Authority as a public corporation in June, 1938, for the purpose of relieving shortages of safe and sanitary dwellings for families of low income, eliminating slum conditions and investigating living and housing conditions. Its area of operation is confined to the City of Hartford.

The program of the Authority has developed along the following lines of activity: (1) The construction and administration of permanent low-rent homes for families of low income; (2) The administration of medium rental dwellings for war workers; (3) Cooperation with municipal, civic and other agencies for the prevention and elimination of unsatisfactory housing conditions in the City of Hartford; (4) The construction and administration of moderate rental housing projects for families of moderate income with preference given to families of veterans and servicemen.

As of April 1, 1956, the Authority had under its management nine completed housing projects as follows:

Name	Number of Dwelling Units
Nelton Court	156
Dutch Point Colony	248
Bellevue Square	501
Charter Oak Terrace	1000
Stowe Village	600
Barbour Street	92
Fred L. Rice Heights	442
Chester Bowles Park	410
Stillman F. Westbrook Village	360

Nelton Court, Dutch Point Colony, Bellevue Square, Charter Oak Terrace, Stowe Village, Fred L. Rice Heights, Stillman F. Westbrook Village and Chester Bowles Park are permanent housing. Barbour Street and 26 units at Dutch Point Colony are temporary housing. All of the above listed projects except Fred L. Rice Heights, Stillman F. Westbrook Village and Chester Bowles Park have been constructed under the Federal Housing Program. Fred L. Rice Heights, Stillman F. Westbrook Village and Chester Bowles Park have been constructed under the State Moderate Rental Housing program.

Ninety percent of the development cost of low-income housing has been pledged as a loan to the Housing Authority by the Public Housing Administration, repayable over a period of 60 years. The Authority issued "A" and "B" bonds in a total amount of $4,651,000 on Nelton Court, Dutch Point Colony and Bellevue Square. Financing of Charter Oak Terrace and Stowe Village is by means of permanent bonds in the amount of $11,025,000. Financing of these projects is for a forty year period. The temporary housing for veterans located on Barbour St. and Stonington St. has been transferred to the City of Hartford by the Federal Government effective February 1, 1950, and is under the management of the Authority. Through agreements with the City of Hartford, a payment of 10% of shelter rents is made to the City in lieu of taxes, low-income projects. A yearly payment in lieu of full taxes is made on war housing projects. On the moderate rental State program the Authority is permitted to pay to the City of Hartford 10% of shelter rents as a payment in lieu of taxes.

The Central Office of the Authority is located at 846 Asylum Avenue, Hartford.

ART MUSEUMS

WADSWORTH ATHENEUM: 25 Atheneum Square No. (3). Tel. Jackson 7-2191. OPEN. Year round, Tuesdays through Fridays, 12 noon to 5 p. m.; Saturdays, 9 a. m. to 5 p. m.; Sundays, 2 p. m. to 5 p. m.; also Feb. 12, Feb. 22, May 30, Oct. 12, and Nov. 11 from 2 p. m. to 5 p. m. CLOSED: Mondays, Christmas Day, New Year's Day, Good Friday, July 4, Saturday and Sunday preceding Labor Day, Thanksgiving.

The Wadsworth Atheneum, Hartford's Art Museum, embraces the Colt, Morgan and Avery Memorials and owns the five inter-connected buildings in the square bounded by Main and Prospect Streets and Atheneum Square North and South. It is the oldest public incorporated art museum in the United States and among the fifteen largest. Founded in 1842, it then housed beside the Art Gallery, the Library of the Young Men's Institute (now the Hartford Public Library), the Connecticut Historical Society, and the Watkinson Library, incorporated in 1858. The Hartford Art School occupies quarters in the Avery Memorial Building.

HISTORY OF THE ATHENEUM: In 1841 Daniel Wadsworth offered the lot of land on Main Street on which stood his grandfather's house as a site for a building to contain a Gallery of Fine Arts, the Hartford Young Men's Institute and the Connecticut Historical Society. The next year the Wadsworth Atheneum was incorporated and money raised. The Gothic Revival building designed by Ithiel Town, which still stands, was begun in 1842 and completed in 1844. Additions to the original building were made in 1864 to house the Watkinson Library and again in 1893. In 1905 Mrs. Elizabeth Jarvis Colt, the widow of Col. Samuel Colt, bequeathed her collection of paintings and other works of art, to the Wadsworth Atheneum with a fund for the construction of a special wing to be known as the Colt Memorial.

The next year Mr. J. Pierpont Morgan announced his intention of erecting a large building as a memorial to his father, Junius Spencer Morgan. The Elizabeth Jarvis Colt wing in Tudor style and the Morgan Memorial, both designed by Benjamin Wistar Morris, were erected in the years 1907-1910. In 1912-

1916 the Morgan Memorial was extended to the east, and in 1917 an important part of his magnificent collections was donated to the museum by his son, J. Pierpont Morgan, Jr.

The most modern unit of the Wadsworth Atheneum is the Samuel Putnam Avery Memorial Wing, completed in 1934. Designed by Benjamin Wistar Morris, with the collaboration of A. E. Austin, Jr., it connects with the Morgan Memorial on Prospect Street. The interior uses cantilevered upper walls and open clerestories, and the central court contains the splendid fountain group by Pietro Francavilla made in 1600. The modern Avery Auditorium in the basement, seating 300, is used constantly for theatrical, dance and musical programs, as well as films.

EXHIBITS: 50 galleries containing collections illustrating the arts of Europe and America. J. Pierpont Morgan Collection of Ancient Bronzes, German Silver and famous Meissen and Sevres Porcelain; galleries of Oriental Art; Wallace Nutting Collection of Early American Furniture; Court of European Tapestries and Armor; Collections of the Arts of Pre-Columbian Central and South Americas; George A. Gay Collection of Prints; Collections of European and American Drawings; Diagbilew-Lifar Collection of Ballet Costumes and Stage Designs; Marine Collection; Collection of Religious Arts of the Middle Ages and the Renaissance, gift of The Hartford Foundation for Public Giving; the Ella Gallup Sumner and Mary Catlin Sumner Painting Collection and other collections of European and American Schools from 1400 to the present day.

THE WATKINSON LIBRARY OF REFERENCE.

Trinity College.

Incorporated May 1858, was endowed by its founder, David Watkinson "for the purpose of establishing in connection with the Connecticut Historical Society a Library of Reference to be accessible . . . to all citizens and other residents and visitors in the State of Connecticut." The collection of approximately 130,000 books and pamphlets offers material on a widely diversified range of subjects. The Library is open to the public for reference from 9:00 a.m. to 5:00 p.m. daily excepting Sundays, Saturdays and Holidays.

CONNECTICUT HISTORICAL SOCIETY

Located at 1 Elizabeth Street. The Society was incorporated in 1825 "for the purpose of discovering, procuring and preserving whatever may relate to the civil, ecclesiastical and natural history of Connecticut." The library contains about 60,000 volumes, 100,000 pamphlets, 5,000 volumes of bound newspapers and 4,000 manuscript collections of varied historical importance. Among the outstanding features are a collection of more than 3,000 printed genealogies covering some 1,700 family names, 10,000 genealogical manuscripts and approximately 3,500 town histories, not only of Connecticut and New England but of many other regions as well. Correspondence of Connecticut's colonial governors, papers, account books and diaries form a primary source for the study of Connecticut history. The Society possesses the most complete collection in existence of early Connecticut imprints and also a splendid collection of early Connecticut newspapers. Among the treasures in the museum are a remaining portion of the Connecticut Charter of 1662, a chair made from the Charter Oak, Mark Twain's bicycle and many interesting Revolutionary and Civil War relics.

The library is open to the public for reference from 9:30 to 5:30 daily except Sundays and Holidays. The museum is open on those days from 1:00 to 5.00. During June, July and August the building closes at 12 noon on Saturdays.

PARKS

There are over 1,353 acres under control of the Park Commissioners.

BUSHNELL PARK.

Was laid out in 1853, contains 41.27 acres, bounded northerly by Asylum st., Ford st., and Jewell st.; easterly by Wells st.; southerly by Elm st. and the Capitol Grounds and westerly by the State Armory Grounds.

The Common Council at a regular meeting held Feb. 14th, 1876 Resolved, That the public park now commonly called "The Park," be and hereby is named "Bushnell Park."

June 17th, 1874, a Bronze Statue of Gen. Israel Putnam was erected with a pedestal of Quincy granite presented by the late J. P. Allyn.

July 22, 1875, a Bronze Statue of Dr. Horace Wells, the discoverer of Anaesthesia, in September, 1844, was erected.

In 1884 the Soldiers Memorial Arch was erected at the south end of Ford at. on Bushnell Park.

In 1899 the beautiful Corning Fountain with Indian figures was presented to the City of Hartford by John J. Corning of New York in memory of his father.

Bridge at the foot of Trumbull Street has been taken down and will be replaced by the Fox Memorial Entrance.

The Hoadley Memorial Bridge was demolished after the diversion of the river and has been replaced by the Hoadley Memorial Entrance.

In 1943 the park river was diverted from the park into a large conduit as part of the flood prevention work.

ELIZABETH PARK.

915 Prospect avenue has 90 acres, the gift of Charles M. Pond in 1895. This is the garden park of the City, the celebrated rose garden is claimed to be the most beautiful Municipal Rose garden in the country; ball diamond, picnic groves, playgrounds, bowling greens and curling pond. Mr. Pond left $100,000 for its development.

POPE PARK.

Colonel Albert A. Pope gave in 1895 some 79.05 acres of land in the southwestern section of the city, on Capitol avenue, Laurel and Park streets, and Park Terrace. It is in the manufacturing district and has children's out-door gymnasium, baseball diamonds, lakelets and a children's playground and refectory and swimming pool.

KENEY PARK.

The gift of Henry Keney. 694 acres, is bordered by Main street formerly Windsor avenue on the east, by Ridgefield street on the west, and on the northwest by Holcomb street. Tower avenue, Vine Street and Love lane pass through it, and Barbour street, Waverly avenue. Harper street and Woodland street extension connect with it. Playgrounds, refectories, golf course, picnic groves, skating pond.

RIVERSIDE PARK.

Has 80 acres, was bought by the commissioners in 1896, in the eastern section of the city, on the river front, between the East Hartford bridge and the N. Y. N. H. & H. Railroad bridge. It has groves, playground and swimming pool.

A dike was constructed on the west side of the park in 1941 to prevent flooding Hartford's east side.

COLT PARK.

Has 114 acres, the gift of Mrs. E. H. Colt, extending between Wethersfield av. and the Connecticut River, is the great playground of the City. It has a memorial statue of Colonel Samuel Colt, the inventor of the Colt revolver. It has a bowling green, lawn tennis courts, ball diamonds and a one-quarter-mile running track, a refectory and swimming pool.

In 1916 a gift of land was presented by Charles E. Gross.

GOODWIN PARK.

Has 237 acres and was acquired by purchase. It extends from South street to Jordan lane, and from Maple avenue to Hubbard Road. It is a country park at the extreme end of the City, and one entrance opposite Cedar Hill, with splendid driveways, magnificant groves and beautiful lakes and 2 golf courses, one 9 and one 18 holes and a house with baths, lockers, etc., and a refectory. Also a playground.

ANCIENT CEMETERY.

Located on Gold street, rear of the Center Church, has an area of 1⅓ acres. A brown stone monument with names of first settlers of Hartford. It was reclaimed with the widening of Gold street, and fenced in 1900. In 1951 a small plot on Main street was

CONNECTICUT STATE LIBRARY AND SUPREME COURT BUILDING. Corner stone laid May 25, 1909.
231 Capitol Avenue, Hartford. State Librarian, James Brewster.

Is of granite an adaptation of the Italian renaissance style of architecture; fireproof throughout, and is a companion building to our beautiful Capitol just across the lawn. It is T shaped with a frontage of 294 ft. 8 in. on Capitol av. and a north to south depth of 137 ft. 6 in. The east and west wings of the T are each 106 ft. 8 in. long and 84 ft. 3 in. wide. The stem of the T or south wing is 60 ft. wide and 76 ft. 6 in. long. The main entrance has been placed 90 ft. back from the curb; entrances are also on ground floor at east and west ends.

The building is divided into three main floors, with a basement under central portion which accommodates the entire heating and ventilating machinery. The boilers for heating are located in a separate building. The ground floor is on level of the street curb. The main floor upon which is located the main reading room of the State Library, Memorial Hall, and Supreme Court Room is fourteen feet above the ground floor and is reached from Capitol av. by granite steps; this is a large room with barrel vaulted ceiling which is carried by massive columns and pilasters executed in marble of buff color. Located at the east end of this central hall and opening from it, is the main reading room of the State Library; on the west end is the Supreme Court Room and its several departments, while adjoining on the south opposite the main entrance is the Memorial Hall; provision has been made in this hall for portraits of the Governors, Stuart's portrait of Washington, and display of the Old Charter; it occupies the stem of the T and is 51 ft. wide, 85 ft. long and 35 ft. high, amply lighted by means of an artistic skylight.

The Supreme Court room, 43 ft. wide, 56 ft. long and 35 ft. high, is conveniently located with reference to the offices of the several officers of the court and the studies of the several associate justices, all of which are provided with the most modern equipment.

The Library Reading room located in the east wing is 43 ft. wide, 90 ft. long and 35 ft. high and lighted by six large windows facing north. Along the south side of this room is placed a three-story steel stack with open shelves for the law library and general works of reference. The balance of the floor is occupied by the special study and reference tables and catalogue cases. Located near this main reading room is the librarian's office, the main stack room, the study rooms, vaults for archives, records, valuable papers and collections, the newspaper rooms for cataloguing, repairing, packing and photostating. Bindery is in separate building at 30 Oak St.

The building is equipped with three automatic passenger and service elevators. The large number of gifts of special collections already received from individuals and societies are evidences that the facilities offered are appreciated.

The site cost about	$175,000
The building, completed and furnished, about	1,200,000
Total cost, approximately	$1,375,000

Commission was
Morgan G. Bulkeley, Hartford; H. Wales Lines, Meriden; W. O. Burr, Hartford; Charles C. Cook, West Hartford; L. W. Robinson, New Haven; Thos. D. Bradstreet, ex-officio, Thomaston.

Reference Advertising

•

Advertising—that is perpetual in mediums that have a permanent value.

Advertising—that protects and supplements all other forms of advertising that create desire.

Advertising—that directs the buyer when the need is imperative after the desire has been created.

Advertising—that by its permanence establishes confidence and stability.

Advertising—by which tomorrow's success is built on today's action.

Names Appearing In Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

Home Mortgage Loans

Home-financing is one of our important services. A modern, amortized savings bank mortgage can be designed to meet your needs and fit your budget. You can pay principal and interest monthly, quarterly or semi-annually and take up to 25 years to pay off your loan. Whether you purchase a home now or plan to build, we invite you to investigate our low-cost home-financing plans.

Names Appearing In Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

Home Office of the Connecticut Mutual Life Insurance Company, 140 Garden St., Hartford

CONNECTICUT MUTUAL · SINCE 1846 ·

One of America's Leading Life Insurance Companies

HIGH RETURN TO BENEFICIARIES . . . 3.3% interest being paid on income settlement funds.

LOW COST TO POLICYHOLDERS . . . A liberal dividend scale—increased eight times since 1943—gives both old and new policyholders low cost life insurance.

GREAT FINANCIAL STRENGTH . . . Assets are diversified among thousands of choice investments which have been selected first for security, then for yield. Assets now total over $1 billion.

PUBLIC ACCEPTANCE . . . Total life insurance in force now exceeds $3 billion.

WIDE RANGE OF PLANS . . . Ages 0-70; broad limits to $500,000.

A CENTURY OF SERVICE . . . The Connecticut Mutual, first life insurance company established in Connecticut, has successfully weathered wars, epidemics and panics since 1846.

NATIONWIDE SERVICE . . . Field Offices from coast to coast.

General Agent at Hartford: Ralph H. Love, 645 Farmington Avenue

Hartford serves the Aviation world

AVIATION throughout the free world depends on the products of Connecticut industry—flight products that for years have enjoyed the high confidence of airmen everywhere.

A major reason, of course, is world-wide recognition of the metal-working skill of Connecticut craftsmen, and their Yankee intolerance of anything less than perfection in the precision work they do. This is the kind of skill going into the aircraft engines, propellers, jet equipment and helicopters designed, developed and produced by United Aircraft Corporation's manufacturing divisions for U. S. armed services and leading airlines of the world.

An important part in this continuing record of achievement is furnished by over two thousand subcontractors and suppliers throughout New England—most of them small businesses—who contribute their skills in working with United Aircraft divisions. More than six hundred of these firms are located here in the greater Hartford area.

United Aircraft is proud to be part of the greater Hartford community and to help extend the benefits of New England's traditional craftsmanship and skill to airmen and air travelers everywhere.

For a *BETTER, FASTER,* modern wiring job . . . say WIREMOLD to your electrical contractor!

Wiremold Surface Metal Raceway Wiring Systems simplify wiring in any kind of building—old or new. They save installation time—they make it easy to extend or change the location of circuits—they are the easiest way to provide enough electrical outlets for your lamps, appliances, machines and devices.

For Factories, Homes, Offices, Stores, Hospitals, Schools, Hotels, and every type of building, old or new. Wiremold Surface Wiring Systems are easily installed without tearing out walls, floors or partitions.

PLUGMOLD

Easiest, fastest, cheapest way to provide multiple convenience outlets. Plugmold, with Wiremold's famous "Snapicoil" receptacles, is installed in one long, continuous run—no multiple connections of a lot of short lengths.

WIREMOLD

Easy-to-install surface raceways that simplify the whole wiring job from panel box to outlets . . . best way to wire most buildings, and the ONLY way to wire many buildings!

PANCAKE

Low-ramp, trip-proof overfloor raceways that carry telephone and other communication circuits, or wiring for light and power, SAFELY right to the point of use.

Ask your electrical contractor—or write us for full information on Wiremold's modern methods for wiring!

A HARTFORD institution from its inception, "Spencer" has been nationally known for more than 60 years.

Spencer Vacuum Cleaning is the accepted standard for schools, hotels, offices, stores, theatres, industrial plants and homes.

Spencer Turbo-compressors are recommended by practically all the leading manufacturers of oil and gas-fired equipment.

Spencer Tube-Vacs are the motive power for pneumatic tube systems in banks, hotels and department stores. Spencer Orgoblos furnish the wind power for the great majority of organs in churches, and the Spencer Drill-Vac, collects dust from rock drills in construction, quarry and mining operations.

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out

Industry-Manufacturers

What can we do for You?

I am Not the BOSS ! ! but my part with my fellow employees has made Industrial Welding Work the high quality that it is.

WELDING AND METAL FABRICATION

IS OUR BUSINESS

ASSEMBLY WELDING

Welding of sheet metal or cast parts to form one piece unit, the parts being furnished by either the manufacturer or ourselves. Inert Gas Arc Welding — for Quality work on Aluminum, Stainless Steel, Brass, Copper, etc.

CONTRACT MANUFACTURING

ALMOST ANYTHING IN METAL FABRICATION ON A CUSTOM BASIS

The manufacture of products, from blue print to finished product, according to specifications furnished by the customer or with the co-operation of our engineering dept.

FLAME CUTTING—SHEARING, FORMING and ROLLING of stainless and carbon steel. Multiple torch cutting of any usual size, shape or quantity.

FACILITIES AVAILABLE

8-foot power shear, 200-ton power brake, power rolls of various sizes and angle iron rolls.

ENGINEERING SERVICE

The Industrial Welding Co. is staffed with personnel skillfully trained in practical and up-to-date techniques on welded construction. We have over ten thousand square feet of floor space with overhead cranes and trolleys which enables us to handle exceptionally heavy work. Our MODERN EQUIPMENT and complete MACHINE SHOP are available to prepare any part, large or small, for welding or brazing.

We also specialize in the manufacture of Aircraft Engine Test Equipment

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted.*

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore—

1000 x 3½ x 305 =

1,067,500

The Mortality of Advertising

The waste basket is the grave of millions of dollars worth of advertising every year. Keep your advertising out of the waste basket by using mediums that are not thrown away. The City Directory is on the job 365 days in the year and no level headed man will think of the waste basket and the City Directory at the same time.

Reference Advertising

He who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer and should be part of all national and local campaigns.
